

UP INTO SPACE

Today's Seriously Fun Adventure...

Today we are going to travel to space with Sport Xplorer Bella. We are all astronauts, and we are going to go up up and away, into space, passing the planets, stars and reaching the moon. So, let's change into our astronaut outfits ready... Don't forget your moon boots!

Before we start our space mission Bella would like your help in checking all the space equipment is safe to use. This is an important job, so let's make sure we concentrate.

Bella now needs our help to reach space. Let's now get into her rocket and get ready for take off. Bella will press the take off button and we will zoom into space, with a huge whoosh!

Once we are up in space we will be able to see lots of planets and stars around us. Bella will steer us around the planets in our rocket. We will have to move and turn around the planets carefully and safely so we don't bump into anything, until we reach the moon.

When we are in space, Bella has a game that she'd like to play with you all that is called the 'Shining Space Star Game'. She explain the rules later but is looking to see who can shine the brightest.
