

UP INTO SPACE

Today's Seriously Fun Adventure...

Today we are going to travel to space with Sport Xplorer Freddie. We are all astronauts, and we are going to go up up and away, into space, passing the planets, stars and reaching the moon. So let's change into our astronaut outfits ready... Don't forget your space helmet!

Freddie needs our help to reach space safely, without bumping into each other or the planets and stars. Let's now get into Freddie's rocket and get ready for take off!

Once we are up in space we will be able to see lots of planets and stars around us. Freddie will be steering us around the planets in our rocket. We will have to move and turn around the planets carefully and safely so we don't bump into anything. Freddie wants to reach the moon.

So when we are in space, look out for all of the colourful planets and the twinkly stars around us. Don't crash into anything...
