

IN THE JUNGLE

Today's Seriously Fun Adventure...

Today children we are going to the jungle with our tour guide Fast Freddie. Listen carefully to his instructions.

In the jungle we will see lots of different unusual plants, trees and animals – flamingos, snakes, elephants and cheetahs. These animals move in different ways, using different speeds, pathways and shapes. Can we copy their movements?

Look out for the Grumpy Grizzly bear! He will be looking for us, so we need to use our balance and different movements to hide from him. Make sure you keep very very still otherwise he might see us!
