

UP INTO SPACE

Today's Seriously Fun Adventure...

It's a lovely sunny day and Freddie is taking us to the race track today! He would like us to help him learn to drive the little red car, and to help him become a better driver by listening to the instructor's commands.

We will learn about the different gears of the car and how we can go faster as we change gear. Be careful not to crash into one another! We will have to use speed but at the same time be aware of the other cars around us, and weave in and out to avoid each other.

There will be races too, where we can race each other in teams across the racetrack. Then we will work in pairs to help each other improve our driving skills.

Watch out for the Grumpy Grizzly – as always, he is trying to spoil our fun! Make sure you don't let him catch up with you and crash into your car!
