

IN THE JUNGLE

Today's Seriously Fun Adventure...

Today children we are going to the jungle with Handy Harry. Listen carefully to his instructions, as we will practise our handy skills and play games with the animals.

How can we practise throwing whilst copying the movements of the animals? We will see how the tigers move around the jungle slowly looking out for their prey, one foot in front of the other. The elephants use their trunks to pick things up and swinging their trunk backwards and forwards to throw. We will also see how the tree frogs jump around and the birds flap their wings faster and faster until they warm up their wings to fly.

We will play games like jungle golf and who can throw the furthest. So come along to the jungle!
