

Today's Seriously Fun Adventure...

Today we are back on the pirate ship with Bella. We are on our final part of our pirate adventure with Bella, so we're going to have to link all of our learning together to perform our pirate dance and solve the mystery of the buried treasure.

Can you remember the pirate dance? And can you remember the actions we learnt last week to row the rowing boat? We will need to row across to the island again in our little boats.

Once we are on the island, we will need to use the treasure map to explore the island. We will need to move carefully across the island so we don't attract the attention of the Grumpy Grizzly! First we will go through the cave, and then we will climb the mountain all the way to the top and back down the other side. Use the skills we learned from Bella to move using balance, so we don't fall. We will have to crawl through bushes and roll down the sandy hill, all the time being careful of our movements.

If we can find the treasure, can you steal it and row back to the main pirate ship with it, without dropping any treasure into the sea?

To celebrate stealing the treasure, we will do our pirate celebration dance all the way through.

So let's go and try to find the treasure!
