

Handy Harry loves to explore with anything that moves – even hoops that roll! Can you and your partner try to roll the hoop back and forth? How many steps apart you can get?

RESOURCES

Hoops

TEACHING POINTS:

Show children how to find the point of balance before pushing the hoop to their partner. Encourage the partner to track the hoop and run to intercept it before it falls over.

MAKING IT HARDER:

- Can the pair pass the hoop back and forth 10 times without dropping it?
- Can the children roll 2 hoops in their pair, so they cross in the middle?

MAKING IT EASIER:

- Practice rolling a hoop away from themselves to an empty space to develop the skill

LINKS TO THE EARLY LEARNING GOALS:

PD, M&H - Children show good control and coordination in large and small movements. They handle equipment effectively.

PSE, SC&SA – Children are confident to try new activities
